

K-Love is very important to me. It is the only station I can receive a positive, contemporary Christian message in my area. It helps me send an uplifting, moral message to those around me. This is in the public interest because it reminds us of our responsibility to do things like obey laws, treat others with respect, etc. This helps us have a safer neighborhood. This effect would be lost if this station were replaced by another LPFM station. There would be no other station to send this type of broadcasting. K-Love is very important for so many people across our land - do not take it away!
